

SUPERVISED LEARNING

Supervised Learning

```
graph TD; A[Supervised Learning] --> B[Regression : Predict continuous valued output eg. Price]; A --> C[Classification : Discrete valued output (0/1)];
```

Regression :
Predict continuous
valued output eg. Price

Classification :
Discrete valued output
(0/1)

REGRESSION

HOUSING PREDICTION

Housing price prediction.

REGRESSION

HOUSING PREDICTION

Housing price prediction.

Size \rightarrow price

A \rightarrow B

STEPS

- 1. Importing the Libraries
- 2. Importing the dataset
- 3. Splitting the dataset into Training set and Test set
- 4. Training Simple Linear Regression model on the training set
- 5. Predicting the Test set results
- 6. Visualizing the Training set results
- 7. Visualizing the Test set result

Price
